Cal OES INLAND REGION

Train Derailment, French Camp, San Joaquin County, Hazardous Materials Spill Report: 18-3508

On 05/30/18 at 1837 hours, Union Pacific Railroad (UPRR) advised that one railcar derailed upright due to human error.

- The railcar was loaded with a non-hazardous material, Di-Calcium (Cattle Feed).
- No material released as a result of the derailment.
- No injuries to any personnel in the area and no impact to any rail line traffic
- Notifications were made per SOP

Cal OES SOUTHERN REGION

Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties (Update)

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

- CDFA and the U.S. Department of Agriculture (USDA) are scaling up their response to this incident, as more cases have been detected.
- CDFA confirmed that there are no commercial premises currently involved.
- CDFA confirmed that there is no public health risk due to this virus.
- Cal OES Southern Region along with Cal OES Logistics continue to assist CDFA in identifying a facility to expand operations in the immediate area of the CDFA district office in Ontario, San Bernardino County, as the current Incident Command Post (ICP) is too small for the current number of responders and supplies.

Activations

- San Bernardino Operational Area (OA) Emergency Operations Center (EOC) is activated to Level 3 (lowest level) and will continue to monitor the incident.

SITUATION SUMMARY

Cal OES SOUTHERN REGION

Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties (Update)

Deployment

- 1 Cal OES Science and Technology Advisor deployed on 05/29/18 until 06/01/18 to the CDFA/USDA ICP as a Biosecurity Infectious Disease Subject Matter Expert with an operational period of 0700-1900 hours.
- 1 Cal OES Southern Region Senior Emergency Services Coordinator (Sr. ESC) deployed to the CDFA/USDA ICP as an Agency Representative with an operational period of 0700-1900 hours.
- 1 Cal OES Logistics Section Chief (Log Chief) deployed to the CDFA/USDA ICP with an operational period of 0700-1900 hours.

Logistics

Per the Cal OES Log Chief via the Cal OES Southern Region AREP on 05/30/18 at 0736 hours:

- The list of facilities from San Bernardino County Real Estate Services did not work out and will not be pursued.
- The Logistics Site Assessment Team (Cal OES/CDFA/USDA) inspected a location in the Colton area on 05/30/18.
- An inquiry to locate available facilities in the area was sent 05/29/18 to the California Department of General Services.

FIRE ACTIVITY

National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 1	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 1	Multi-Agency Coordination System MACS Mode: 1

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

Grant, Vegetation Fire, Alameda County and Contra Costa County

Grantline Rd x Mountain House Rd,

Altamont Area State/Local DPA, SRA/LRA, Santa-Clara Unit, Contra Costa Fire Department

Start date/time: 05/30/18 at 1321 hours

- Total of 7 fires 500 acres grass, **35% contained**
- 2 fires in Alameda County
- 5 fires in Contra Costa County

Per the Cal OES Fire and Rescue Branch Assistant Chief (AC) on scene via the Cal OES Fire and Rescue Branch Duty Officer (FDO) at 1538 hours:

- The area is mainly for livestock and farming.
- Crews are making good progress on establishing lines and mop up.
- The only confirmed structure loss are outbuildings. There are no reports of residential loss at this time.
- There are currently no requests or unmet needs.

Per Contra Costa Sheriff via the Cal OES Law Enforcement Branch Duty Officer (LDO) at 1552 hours:

- Homeowners are being allowed into the area to remove livestock.
- Residents were evacuated from the east end of Contra Costa County as a precaution and are expected to return within an hour or so.
- There are no reports of anyone needing temporary shelter or any other basic needs.
- Both fires have been contained and are almost completely out.
- There are no requests for law enforcement mutual aid.

WEATHER SYNOPSIS BY REGION

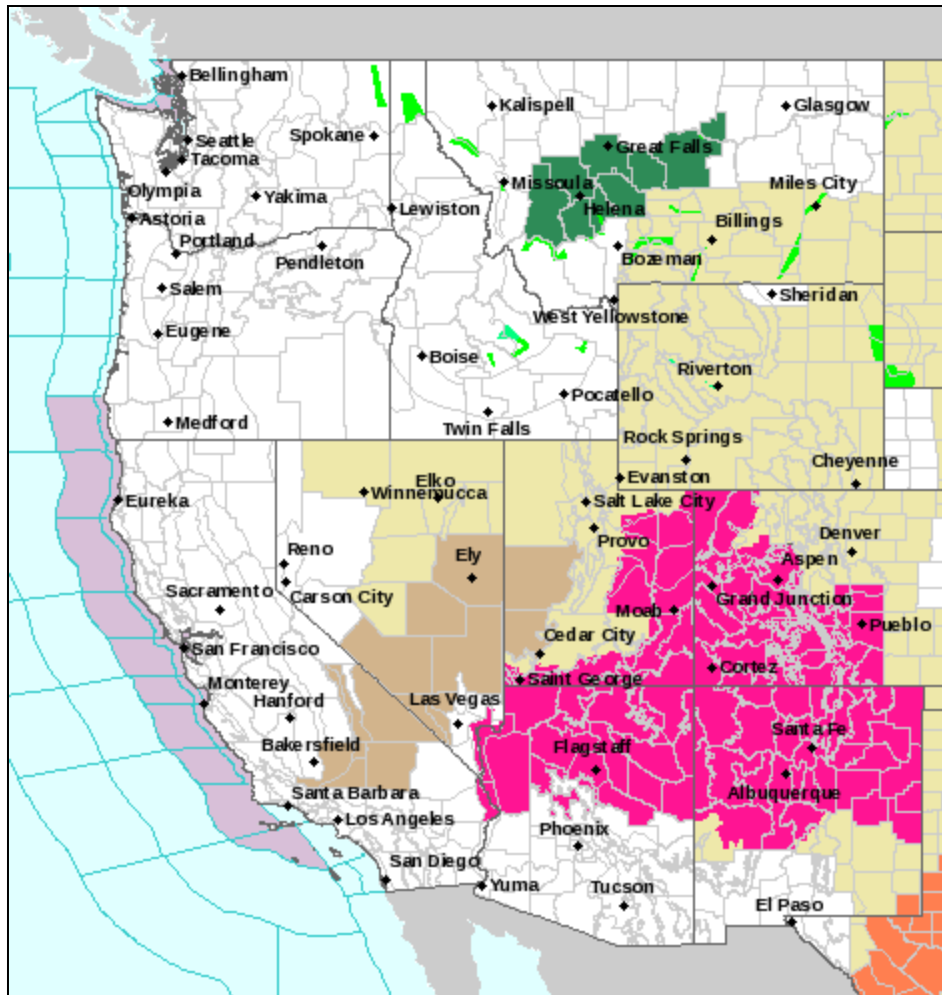

NORTHERN CALIFORNIA

A weather system moving into the region Thursday will cool things down and bring in some higher relative humidity (RH). There will be some afternoon showers or mostly wet thunderstorms developing over our northern and eastern mountains Thursday. High pressure returns for the weekend with drier, hot conditions again into early next week. Another weak weather system will arrive about the middle of next week to cool things down somewhat. Thursday, temperatures will be about 10 degrees below normal with the warmest inland areas mostly in the mid 70s. Highs over the weekend will return into the 90s. Winds next week over the coastal counties, through The Delta and east of the Cascade/Sierra crest will settle into a typical summer diurnal pattern with gusty afternoon westerly winds.

SOUTHERN CALIFORNIA

The weak low which has been sitting off the coast the past few days will swing inland in phase with a trough over the Pacific Northwest. This will result in cooler, breezier weather over many areas Thursday. Onshore pressure gradients will increase which will generate west to southwest winds of 20-30 mph with higher gusts in and near the desert. Winds will likely increase in these same areas Thursday with some gusts to 50 mph possible over the Antelope Valley, Banning Pass and the southern portion of the Owens Valley. The marine layer will be deep, allowing low clouds and drizzle to penetrate the valleys and climb over 4,000 feet in the surrounding mountains. Temperatures will fall dramatically, especially over inland areas. Thursday, highs will only be in the 60s along the coast to the lower 80s in the valleys. This weekend, weak high pressure over the Southwest is expected to bring warmer weather back to the region. High temperatures will be back in the 90s in the valleys by Saturday and Sunday with far less marine layer coverage. Winds will be light after Friday. A slight cooling trend may occur early next week.
